

Spring 2017 OIMB Seminar Series

Oregon Institute of Marine Biology
Charleston, Oregon
Boathouse Auditorium, Fridays 4:00 pm

- April 7**
4:00 p.m. **Dr. Richard Emlet**, Oregon Institute of Marine Biology
Winter Plankton Chronicles on the Oregon Coast: Storms, Embryos, Larvae, and other transients
- April 14**
4:00 p.m. **Dr. George von Dassow**, Oregon Institute of Marine Biology
Adaptations to cell division that enable animal embryogenesis
- April 21**
4:00 p.m. **Dr. Brian Helmuth**, Northeastern University
Environmental mosaics and biogeography: when does a "gradient" stop being a "gradient"?
- April 28**
7:00 p.m. **Dr. Julia Parrish**, University of Washington
70,000 carcasses, 175 species, 500 sites and 4,00 people: beached bird patterns in a warming world
****Public Seminar – 7pm****
- May 5**
4:00 p.m. **Dr. Sarah Henkel**, Oregon State University
Small proportions of silt linked to distinct and predictable differences in marine macrofaunal assemblages on the continental shelf of the Pacific Northwest
- May 12**
4:00 p.m. **Dr. Dennis Lavrov**, Iowa State University
Animal mtDNA as we don't know it: unusual mt-genomes in non-bilaterian lineages
- May 19**
4:00 p.m. **Dr. Rachel Pepper**, UC Berkeley
Microscopic suspension feeders near boundaries: feeding restrictions and strategies due to eddies
- May 26**
4:00 p.m. **Dr. Kristin Hultgren**, Seattle University
Ecology and evolution of social behavior in tropical, eusocial snapping shrimp.
- June 2**
4:00 p.m. **Dr. Kelly Sutherland**, University of Oregon
All together now? The coordination of multiple swimming jets by salps and siphonophores
- June 9**
4:00 p.m. **Dr. Svetlana Maslakova**, Oregon Institute of Marine Biology
Evolution of Larval Development in Ribbon Worms (phylum Nemertea)

OIMB Boathouse Auditorium

Please park on Boat Basin Road and walk to the OIMB Boathouse
Call (541) 888-2581 or email oimb@uoregon.edu for more information
