

2022 SUMMER TERM
OREGON INSTITUTE OF MARINE BIOLOGY

June – August 2022

oimb.uoregon.edu

The University's marine biology station at Charleston is an ideal location for the study of marine systems. Many habitats are within easy reach of the laboratory. To the north are 50 miles of sandy beaches, and to the south are extensive rocky shores. OIMB is at the entrance to Coos Bay and adjacent to the South Slough National Estuarine Research Reserve; estuarine and open ocean habitats are only minutes away. OIMB offers a variety of courses during the summer term. In addition to the eight week term, several two week and weekend workshops are available. Courses are open to qualified students from all institutions as well as those interested in continuing education. Courses are designed for upper-division marine biology and biology majors, and environmental science majors. Courses meet for at least seven hours a day and include extensive field work. The recommended course load for the eight-week session is 12 to 16 credits. **All students planning to take OIMB courses should fill out an application form (attached to this sheet).** OIMB Scholarship information is on the OIMB web site.

8-Week Courses:

June 21 – August 12, 2022

BI 451/551 Invertebrate Zoology (8 quarter hour credits) Introduction to the diversity of marine invertebrates: what they look like, how they work, where they live, and their natural history and behavior. *Fulfills Area 2 major requirement.* Meets 8:00am - 5:00pm Mon., Wed. and Fri. Instructor: Patrick Baker

BI 455/555 Marine Birds and Mammals (6 quarter hour credits) Topics covered include systematics, ecology, social systems, morphology, evolution, and physiology. Meets 8:00am - 5:00pm Tues. and Thurs. Instructor: Doug Warrick

BI 457/557 Biology of Fishes (6 quarter hour credits) This course includes biology, physiology and ecology of tidepool, estuarine and marine fishes, and emphasizes data collection and analysis through a study of Oregon's fauna. Meets 8:00am – 5:00pm Tues. and Thurs. Instructor: Paul Cziko

BI 407/507 Seminar: Marine Biology (1 quarter hour credit) Guest speakers present their research. Meets 4:00 – 5:00pm Wednesdays. (Wednesday 8 credit courses end at 3:30pm to accommodate seminar)

4-Week Courses:

June 20 – July 15, 2022 (first 4 weeks of summer term)

BI 457/557 Deep-Sea Biology (4 quarter hour credits) This course is an overview of the organisms, habitats and ecological processes occurring in deep-water systems on the continental shelf and slope, submarine canyons, seamounts, abyssal plains, methane seeps, hydrothermal vents and hadal trenches. Laboratory activities and field trips will strongly supplement lecture material and assigned reading; field work and projects will involve the collection and analysis of offshore trawl, dredge, core, ROV and camera sled data. Meets 8:00am – 5:00pm Mon, Wed. and Fri. Instructor: Craig Young

Illustrations by Lynn Rudy

2-Week Courses:

August 15 – 19 and Aug. 22 – 26, 2022

BI 399 Introduction to Experimental Design and Statistics (4 quarter hour credits) A course designed for upper-division undergraduates that explores the principles of experimental design and evaluation of appropriate analysis techniques in ecological studies. Meets 8:00am - 5:00pm Instructor: Brian Bingham

August 27 – September 10, 2022

OMBI 488: BI Tropical Marine Biology in Panama (6 quarter hour credits) An intensive field course in Panama focused on tropical coastal biology and environmental issues. The course will integrate biology of 3 distinctive coastal habitats (coral reefs, mangroves, and seagrass meadows) and consider relevant human environmental issues on global and local scales. The course will be offered in Panama at the Smithsonian Tropical Research Institute's (STRI's) Bocas Research Station (BRS). In spring term 2022, students are required to take BI 405 Reading/Seminar. The spring seminar course will require students to read primary and secondary literature that explores the habitats and environmental issues that will be seen in Panama. In summer 2022 students will work to design and plan their research project to carry out during the field course in Panama. Instructors: Richard Emlet and Maya Watts. *Prerequisite: BI 451 Invertebrate Zoology.*

Weekend Workshops:

All day Saturday and Sunday for two consecutive weekends

June 18-19 and June 25-26, 2022

BI 408/508 Biological Illustration (2 quarter hour credits) How to produce accurate drawings of animals and plants suitable for reference, publication, or display. No prior experience is necessary. Meets 8:00am -5:00pm Instructor: John Megahan

July 9 – 10 and July 16 – 17, 2022

BI 408/508 Marine Bioinvasions (2 quarter hour credits) Invasions of non-native marine animals and plants have significantly altered the biodiversity of coastal habitats around the world. We examine the theoretical, historical, and ecological concepts and consequences of biological invasions in the sea, review how species have been and continue to be transported globally, and key policy perspectives to prevent and control invasions. The course includes lectures, field work, and laboratory analyses, as we explore the phenomena and processes that influence invasion success. Meets 8:00a.m.-5:00p.m., Saturday and Sunday. Instructor: Jim Carlton

OIMB INFORMATION Tuition and fees are the same as those on main campus. Room and board is \$224/week *subject to fee increases*. To apply for courses and room and board return the application form on the reverse of this announcement. If you have questions about summer term courses contact OIMB: oimb@uoregon.edu. Phone:541-346-7280 or visit the biology advising office in Klamath Hall.

APPLICATION FOR SUMMER COURSES AT THE OREGON INSTITUTE OF MARINE BIOLOGY

Please print out this form, fill out the details and return it by May 30* to: OIMB, PO Box 5389, Charleston, OR 97420, or email it to Tammy Trost at ttrost@uoregon.edu with "2022 Summer Application" in the subject.

*After May 30 please call OIMB: 541-346-7280 or email Tammy to check if courses have openings.

HOUSING

Do you want to apply for dormitory housing? Yes / No If Yes: Female / Male / UO Graduate Student

Housing includes a meal plan through our dining hall. Do you have any dietary restrictions and/or food allergies our cooks should be aware of? _____

ACADEMIC RECORD AND RESIDENCY INFORMATION

Will you have a B.S. or B.A. degree when you attend OIMB? Yes / No

Have you previously attended the University of Oregon? Yes / No

In which state do you reside? _____ How long have you lived in that state? _____

The University of Oregon is an equal opportunity, affirmative action institution committed to cultural diversity in compliance with the Americans with Disabilities Act. Accommodations for people with disabilities will be provided if requested in advance.
